The measurement of the Republican prestige his not exhausted itself. Most if not all of the issues on which the party came interperse, and by which it has held on to office, have passed out of existence. But no great hame, appealing directly to the common interest of the people, has arisen, and, in the absence of such an issue, it is natural to expect a lack of popular interest and to encounter a consequent want of viger in the Democratic line. We have not looked to these elections with much hope, and have not deceived our readers with any hise promises. Therefore, we are not unduly cast down by sudden disappointment. The Democratic leaders must pick their finit and try it again. There are some gains, as matters stand, and to those who are prepared for the present situation, there is no need for crying. los. Ben.
